

TECH LIFT M4

Tech Lift M4 is based on 4 telescopic lifting columns that give the lift a clean and stylish appearance, the operation is almost maintenance-free and has a very quiet operation.

Tech Lift M4 is equipped as standard with a battery backup for use in the event of a power failure. Doors and sides are covered with colored polycarbonate glass for a luxurious look.

Its unique design means there is no need for a large engine room at the side or front, resulting in it taking up little space while blending into the environment.

Designed and manufactured in SWEDEN, meets European standard EN 81-41.
